

# TABLE OF CONTENTS

## 1. Fundamentals to Crypto

- 1.1. Background
  - 1.2. What is money?
  - 1.3. Bitcoin a alternative to gold?
  - 1.4. Satoshi
  - 1.5. Important terms
  - 1.6. Blockchain
  - 1.7. NSA (SHA 256)
  - 1.8. Banking System (Davis vs. Goliath)
  - 1.9. Acceptation of the masses
  - 1.10. Questions of costs
- 

## 2. Goals of blockchain and cry

- 2.1. Reality vs. the "Story"
  - 2.2. Stay Anonymous but how? Here some tips
  - 2.3. Freedom vs. control (anonymity and traceability)
  - 2.4. Trojan in the head
- 

## 3. Cycles

- 3.1. Timeline
  - 3.2. Why are this cycles?
  - 3.3. How Whales invest
  - 3.4. OTC (What this really mean?)
  - 3.5. The "GAME of WHALES"
  - 3.6. Price calculation (DEX, CEX, Arbitrage)
  - 3.7. Price calculation (OTC)
- 

## 4. Who controls movements in Bullrun and Bearmarket?

- 4.1. The bags of whale
  - 4.2. Investor needs and feelings in the cycle
  - 4.3. Hype (FOMO vs. FUD, Panik)
-

## 5. Real value of cryptotoken.

- 5.1. What are the real values of cryptotoken?
  - 5.2. Usecase(Payment, proof of ownership, tradeability)
  - 5.3. Marketing in the Cryptospace
  - 5.4. Scams (What is that?!)
  - 5.5. The value of the Community
  - 5.6. Communitybuilding and maintenance
  - 5.7. Onchaindata
- 

## 6. What is the Marketcap?

- 6.1. History
  - 6.2. What difference make the Cryptomarketcap?
  - 6.3. What you can read out of it?
  - 6.4. What value has it for you in the Cryptogame?
- 

## 7. Influencer on the market.

- 7.1. Youtuber (and there Strategies)
  - 7.2. Media (Who pay them?)
  - 7.3. Institutional investors (What are there goals?)
  - 7.4. Other investors in crypto (Can you trust them? What are there intensions?)
  - 7.5. Societies and Associations
  - 7.6. Legal aspects
- 

## 8. What is DeFi

- 8.1. Whatis DeFi?
  - 8.2. Possibilities
  - 8.3. DEX vs. CEX
  - 8.4. Dollar cost averaging (DCA)
  - 8.5. Strategies in DeFi
  - 8.6. Risks
  - 8.7. Impermanent Loss
  - 8.8. For whom is a good?
  - 8.9. Technical Explanations
  - 8.10. Staking (Why people introduced staking, chances, risks, YOU have to know THIS)
  - 8.11. Onchaindata DeFi
  - 8.12. Exploits
  - 8.13. Conclusion
-

## 9. Essential Fundamentals and Knowledge which makes the difference of profit or lost

- 9.1. Know your surroundings (The intention of the market participants.)
  - 9.2. Which info you can trust?
  - 9.3. Feelings and logic (Get to know yourself.)
  - 9.4. The Fear and Greed Index
  - 9.5. Parallel income and savings
  - 9.6. Community and their Management (Source of income)
  - 9.7. Legal
- 

## 10. How to really evaluate a crypto project?

- 10.1. Tokenomics
  - 10.2. Team
  - 10.3. Background check (Already invested VCs, Marketing strategy, Market Maker, Partner, Community)
  - 10.4. Legal check
  - 10.5. Before launch and after launch (Analytic Platforms)
  - 10.6. Currently a hype topic?
  - 10.7. Legal
- 

## 11. How to participate successfully on a ICO?

- 11.1. How early are you?
  - 11.2. Investment phase? (Seed, Pr....)
  - 11.3. Use case of the token
  - 11.4. Legal check
  - 11.5. Which phase of the cycle?
  - 11.6. Community
  - 11.7. Your investment period./window
  - 11.8. Tokenomics for TGE
  - 11.9. Vesting and Cliff
  - 11.10. Vc's
  - 11.11. Market Maker
  - 11.12. Pump and Dump
  - 11.13. Exit strategy
  - 11.14. Launchpad
- 

## 12. Airdrops

- 12.1. Free money?
- 12.2. Why airdrops?
- 12.3. Qualify
- 12.4. Chances and risk

---

### **13. How to make profits in a bear market?**

- 13.1. What is a bear market?
  - 13.2. Buy chances
  - 13.3. New projects vs. OG
  - 13.4. Trends
  - 13.5. Story building
- 

### **14. How to act in a Bullrun? (Rules and Fundamentals)**

- 14.1. Psychology
  - 14.2. Phases
  - 14.3. Take profits
  - 14.4. Use media to see the direction
  - 14.5. Use your OPS
- 

### **15. Legal Background**

- 15.1. How it looks worldwide?
  - 15.2. USA banned?
  - 15.3. How is it as investor in the US?
  - 15.4. Look at the disclaimer
  - 15.5. Who can guarantee?
  - 15.6. Insurances
  - 15.7. Securities
  - 15.8. Utility Token
  - 15.9. NFTs
  - 15.10. SEC
- 

### **16. Final deeper thoughts for your security**

- 16.1. How much to invest?
  - 16.2. Parallel income or reserves are important
  - 16.3. Understand the people in crypto (MLM)–partner, friends or competition?
  - 16.4. Doublecheck your feelings
  - 16.5. Setup a strategy and follow + investigate the market and adjust
